Christmas Songbook

Seventeen Songs for 12 Hole Ocarina

Transcribed by David "Docjazz" Ramos

Song Index

Angels We Have Heard on High Jingle Bells

Auld Lang Syne Jolly Old Saint Nicholas

Away in a Manger O Come, All Ye Faithful

Christmas Time is Here Rudolph the Red-Nosed Reindeer

Deck the Halls Santa Clause is Coming to Town

The First Noel Silent Night

Frosty the Snowman We Three Kings

Greensleeves We Wish You a Merry Christmas

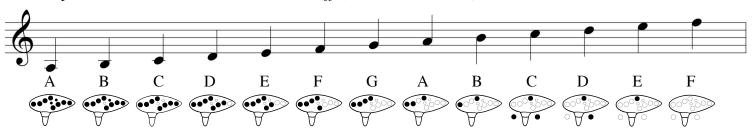

Joy to the World

How to Use this Book

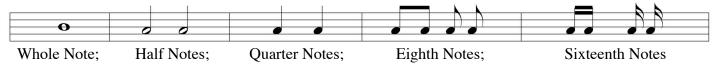

While we do offer ocarina tablature in this book for the budding musicians, we know that you may eventually wish to expand on your music skills. The easiest way to do this is by learning to read music notation. Reading music is both fun and easy, and with a little practice, you will be able to read and play any music you can find!

Notes and Staff

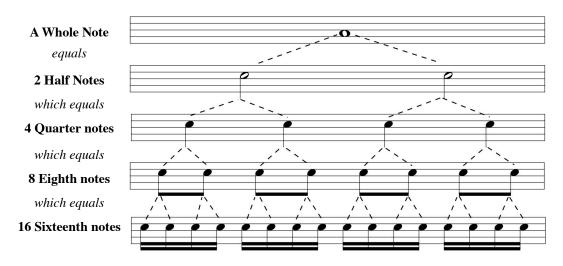

The fundamentals of music are based on *pitch* (which sounds to play) and *duration* (how long to hold each sound). In Western music, we have 7 fundamental pitches known as the *musical alphabet*: A-B-C-D-E-F-G. These pitches are notated on what is called a *staff* (five horizontal lines).

The duration of each pitch is represented by *Notes*.

Here are how the notes compare:

Rests

Sometimes there will be pauses in the music, which also must be notated. Just as notes tell you how long to hold each pitch, *Rests* are used to tell how long each pause will be.

Dotted-Notes and Ties

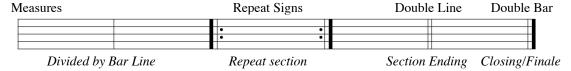

Accidentals and Key Signatures

Accidentals are pitches which are raised or lowered by a semitone, the smallest interval in music. A sharp sign (#) next to a note raises it by a semitone. The flat sign (>) lowers it by a semitone. Finally, the natural sign (>) cancels out any sharp or flat that precedes it. These are only observed in the *measure* which they appear, and return to their original pitch in the following measure. When accidentals appear at the beginning of the music, this is called a *key signature*. These are observed throughout the entire song.

Measures

Measures, also known as bars, are used to measure a specific amount of notes (beats/pulses) according to a *Time Signature*. Each measure is separated by a *bar line* dividing the staff, but there are several types.

Time Signatures

Time Signatures show you how many notes there are per measure. The top number shows how many beats there are (e.g.: 4 = 1-2-3-4 or 3 = 1-2-3), while the bottom number shows the kind of note (4 = quarter note; 8 = eighth note).

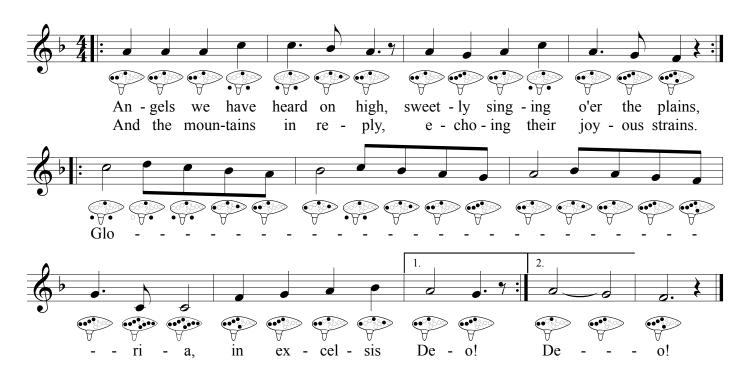

Repeats and Endings

Many songs have melodies or sections that repeat multiple times. To make the music easier to read and to save space on each page, you will see several of the following symbols throughout this book.

	Jump to Coda sign First Ending		Second Endin	g Back to be	ack to beginning, then play until "To Coda"	
	¥	¥	`	¥	¥	Coda Sian
٨	To Coda	1.		2.	D.C. al Coda	◆ Coda Sign
			•			
₩			•			

- Step 1: Play through first 4 measures, ignoring "to Coda", and into the first ending. Play until Repeat sign.
- Step 2: Repeat from beginning, ignoring "to Coda", but skip first ending and play second ending.
- Step 3: Play until double line, then observe "D.C. al Coda". Jump back to the beginning.
- Step 4: Play first two measures, then observe "To Coda", jumping to the final measure and ending the song.

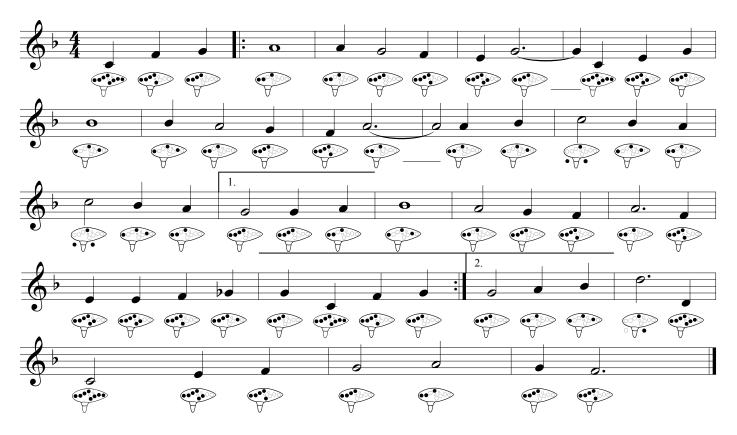

Angels We Have Heard on High

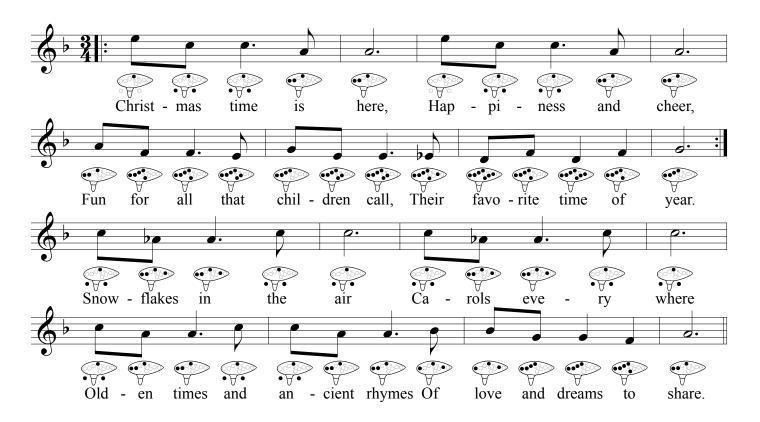

Auld Lang Syne

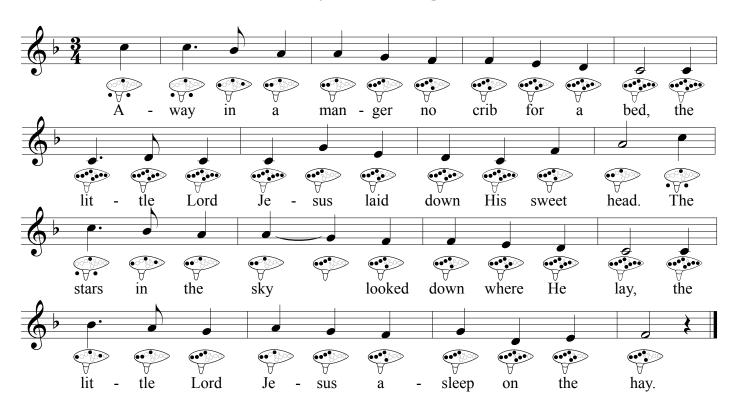

Blue Christmas

Christmas Time is Here

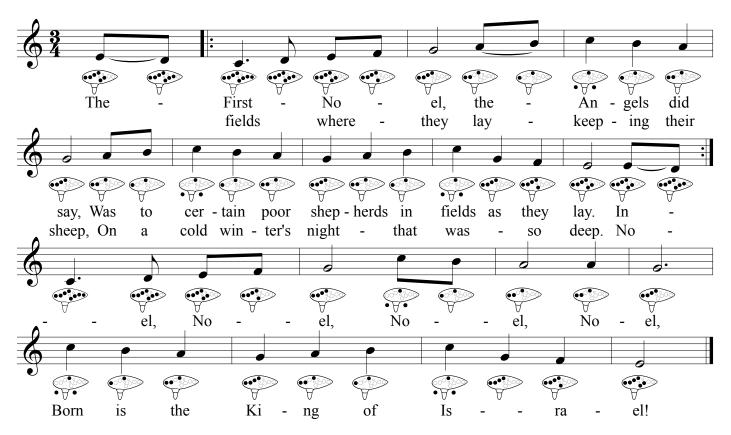

Away in a Manger

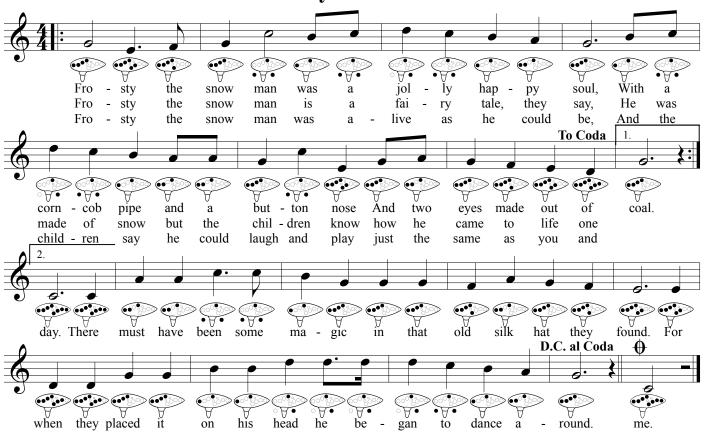

Deck the Halls

The First Noel

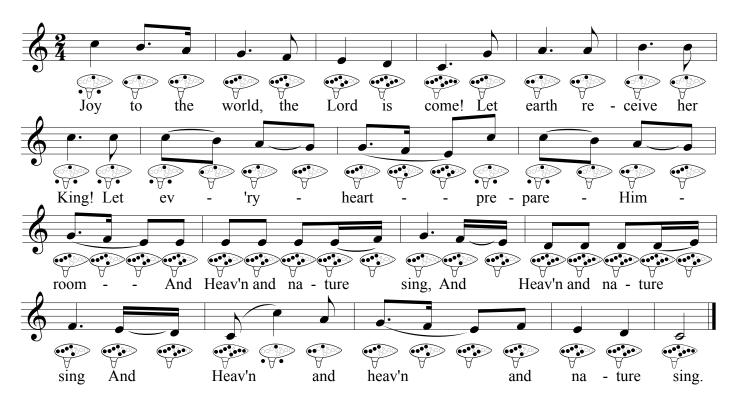

Frosty the Snowman

Greensleeves (What Child is This)

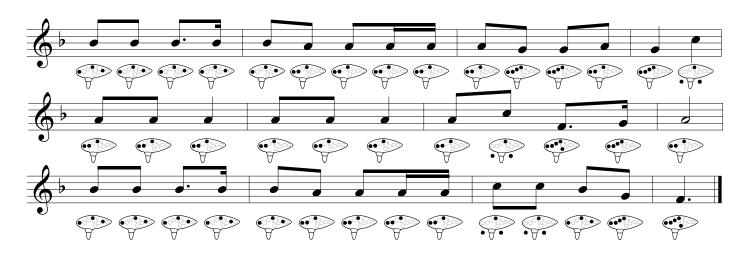

Joy to the World

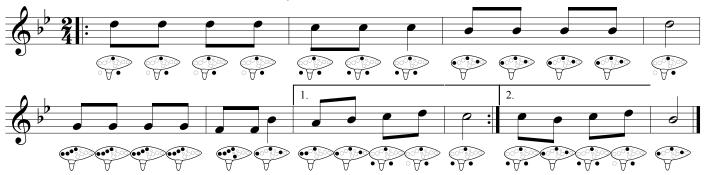

Jingle Bells

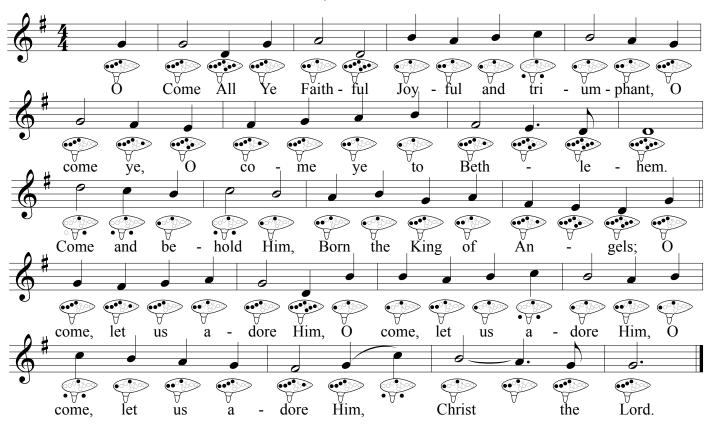

Jolly Old Saint Nicholas

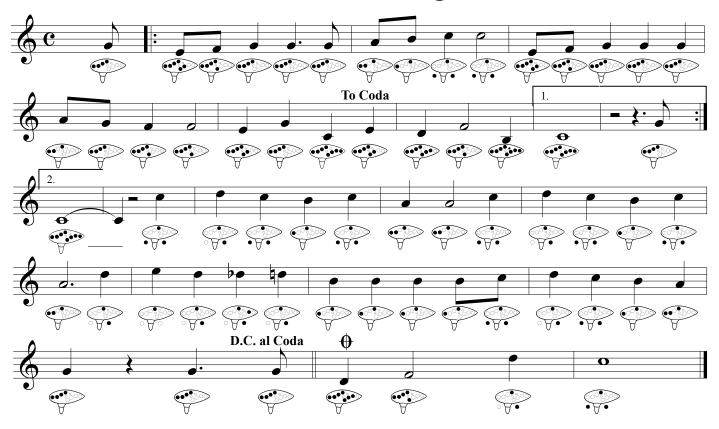

O Come, All Ye Faithful

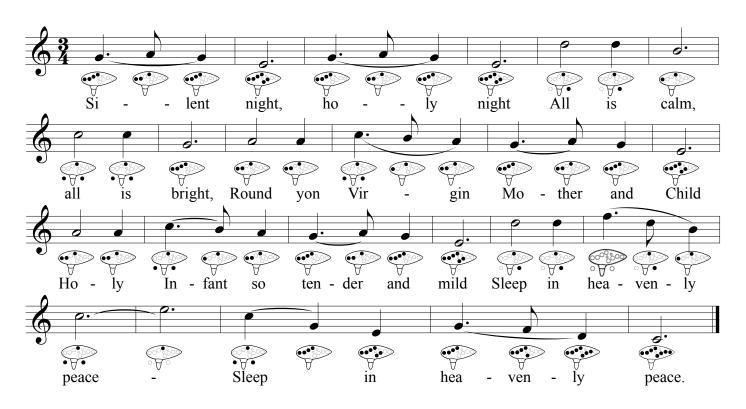

Rudolph the Red-Nosed Reindeer

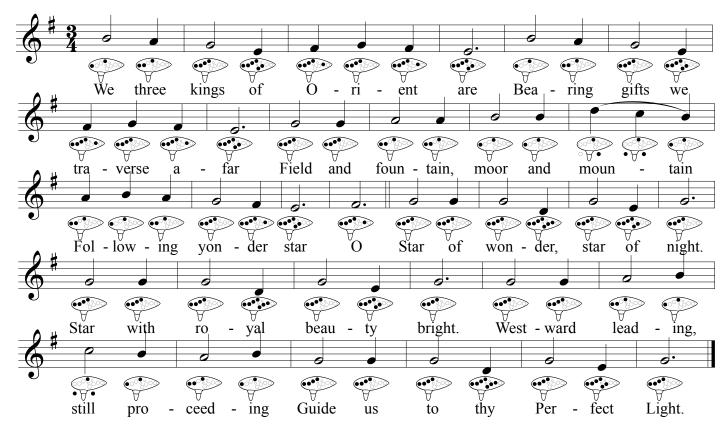

Santa Clause is Coming to Town

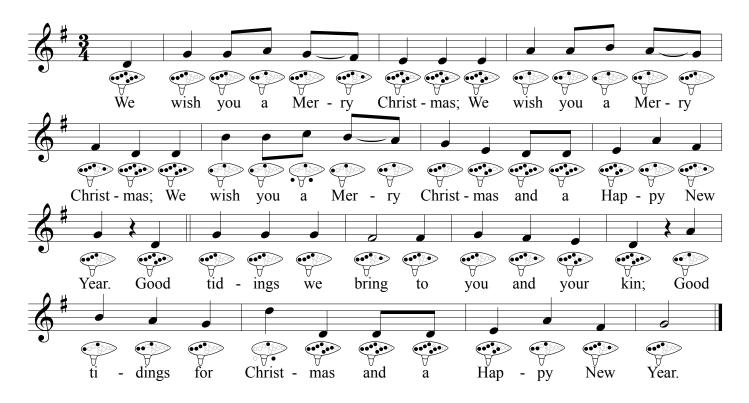

Silent Night

We Three Kings

We Wish You a Merry Christmas
